

August 6th, 2025

To the OCEANO Community Services District General Managers and Directors,

I would like to offer my strong support for Charles Varni's re-inclusion as a member of the OCSD Parks and Recreation Committee. Through Mr. Varni's vision, leadership and dedication the committee has made great strides in providing actual improvements to our community.

His unflagging enthusiasm for improving the lives, safety and wellbeing of the residents of Oceano is unparalleled. His election to the OCSD Board was a breath of fresh sea air for this community. From its inception OPARC, founded by Mr. Varni in his role as a OCSD Board Member, was dedicated to getting things done in our community. He attended Oceano Elementary School PTA meetings and community coffees, engaging members in discussions on the needs of Oceano and then working diligently with County Government to see that things got done.

Under his watch things got done, Oceano school kids got to experience field trips to Local State parks, the County painted ladder crossings around Ocean Elementary School and several areas around the school are slated for sidewalk upgrades. Under his leadership, the crowning achievement of the committee, so far, is the stewarding of a walking track project at Oceano School. What started as an idea at a brainstorming session early on, is now a reality.

I urge the OCSD board to approve Mr. Varni as the Oceano Beach Community Association representative, so that we may continue to work together towards the continued improvement of Oceano.

Respectfully,

Ray Monson

OCSD OPARC Committee Member
